EVANESCENCE

# JEAN-MICHEL LENOIR

A passion for nature from an early age led Jean-Michel Lenoir to photography to capture the magical moments of beautiful, pristine nature and wildlife.

Landscape photography is his quest for atmosphere, where light and beauty are key references, his aesthetic landmarks. Jean-Michel relies on his love of open spaces, combined with his search for beautiful light. He searches for simplicity, images that go to the core, with few objects in the frame. He loves minimalism and simple landscapes. Snow, ice & mist have been his guides for many years.

Jean-Michel has a suggestive approach: *"I DON'T TRY TO SHOW A SUBJECT AS IT IS, BUT TO SHARE WHAT IT EXPRESSES. IT'S MY WAY OF TELLING STORIES AND CONVEYING MY SENSITIVITY, LIKE MY RECENT BOOK, EVANESCENCE".*

Images of fleeting nature: snow showers blur tree lines, mist rises above a pond, wave breaks over a rock, water runs under a frozen river, and the silhouette of an animal fades to blend with the white.

Combining his passion for pictures with rugged landscapes, Jean-Michel also organizes and guides photo tours and workshops. From northern Europe (Finland, France, Norway, Scotland, Sweden) to South America (Bolivia, Peru), photography takes him to wilderness areas, his main source of inspiration.

EVANESCENCE

Jean-Michel has won prizes from the prestigious Wildlife Photographer of the Year and GDT (Gesellschaft für Naturfotografie) photography competitions, is published regularly in magazines, leads photography tours with Photographes du Monde, and is an ambassador for Fujifilm (mostly using a medium format GFX camera) and Cokin. He prefers to capture images on camera rather than spend time in front of a computer screen.

#### ABOUT **TAUNUS FOTO GALERIE**

Taunus Foto Galerie (TFG) was established in Bad Homburg in 2020 by David Mark, a Brit/German, who had previously spent 40 years in sales in financial services.

TFG wants visitors to enjoy world-class fine art photography in a friendly, pleasant environment. TFG provides interested collectors and art lovers the opportunity to experience limited-edition prints – together with the stories behind their creations – from some of the finest photographers in the world, up close and personal. Working in partnership with international galleries, TFG has six to eight exhibitions each year, where visitors can view and purchase a range of photographic work that celebrates the natural and the man-made world. We are convinced that excellent photography belongs on paper and that prints are much, much better than JPEG!

Visit [taunusfotogalerie.com](https://taunusfotogalerie.com) for more information about the exhibitions, the artists, and their work that we have shown over the past three years.
